

## CHAPTER V

### CONCLUSSION AND SUGGESTION

#### A. Conclusions

Based on the finding and discussion in chapter IV, it could be concluded that:

The use of documentary film as media in the teaching of writing report text was very effective. It was proved by the result of t-test. The t-test showed that t-score 2.204 was higher than t-table 1.67. It means that  $H_a$  was accepted and  $H_o$  was rejected. Since the t-score was higher than the t-table, there was a significance difference in the achievement between students in class XI C who were taught report text through the use of documentary film and students in class XI A who were taught reort text without using documentary film (using text only). The average score of experimental group was 81.3 and the average score of control group was 78.4. It means that the experimental group (class XI A) was better than the control group (class XI C). It could be concluded that the use of documentary film as media was very effective to teach writing report text at the eleventh grade of MA Roudlotut Tholibin in the academic year of 2013/2014.

#### B. Suggestions

From the conclusion above, there are some suggestions that are proposed by the writer:

1. For Teacher
  - a. Teacher may consider the use of documentary film in the teaching of writing report text because it can inspire students' mind what they have to write. By watching a documentary film, students will not find difficulties in getting an idea to write.
  - b. Teacher should prepare the equipment well. It means that before using a documentary film as a medium in the teaching of writing report text, it will be better for teacher to make sure that the qualities of equipment used are good.
  - c. Teacher should plan the time well. They should be careful in selecting the documentary film and considering its duration and the length of time for writing activity.

2. For Students

- a. Students should study more and respond in learning process.
- b. Students should be more interested in English study.
- c. Students should improve their ability in English

3. For other researchers

The writer hopes that the other researchers who intend to use documentary film in teaching learning process; he or she must prepare the principle of audio lingual method by having a good preparation.
