In teaching and learning English at Junior High School, teacher must create enjoyable, and interesting atmosphere, because the enjoyment is the basic modal that has to be noticed in order to get students' attention in learning. So, students will be interested in learning. Teacher can create an entertainment or enjoyment situation by giving animated film in delivering materials. By using animated film, students do not only pay attention to the material but also can identify some grammatical structures in interesting way. If students have high interest, it will not be difficult for teacher to teach the lesson. In addition, students also will easily open their minds on understanding the material.

The researcher hopes that the school institution can support teachers to create enjoyable and interesting atmosphere in learning such as animated film as learning medium in teaching English verbs. Thus, this research can improve students' English skill especially in grammar.

Thus, the researcher realizes that it still less perfect. The researcher hopes any suggestions and criticisms to make it better. The researcher hopes that it can be useful for all readers. Amin.
