

CHAPTER V

A. Conclusion

Based on the research that was carried out in SMK Patiunus Karangawen, the writer drew conclusion from the previous chapter which have been discussed

1. The know the effectiveness of using song in asking and giving direction. The researcher also motivated students to speak loudly and confidently. In another hand, the researcher encouraged students to be active in learning process as long as they performed and be creative in using song.
2. The proof that using song is effective to teach speaking in expressing asking and giving direction So the experiment of using asking and giving direction was successful.

B. Suggestion

Based on the result of observation, there are some suggestions:

1. For Teacher
 - a. Teacher should have prepared the material well to get maximum result in teaching and learning process;
 - b. Teacher should be creative to get students' interest in learning process, especially to improve the students' speaking skill.

- c. Teacher should be more meaningful language in teaching and learning process to make students' understand the material;
 - d. Teacher should more understand about the students' characteristic to be easier in delivering material;
 - e. Teacher should create the condition of the class to be fun, such as the students could using song;
 - f. Teacher should more care and more pay attention to the students' mistakes in order there will be correction from the teacher to the students;
 - g. Teacher should always motivate the students of the English importance as an International language;
 - h. Teacher should study more about teaching strategies to get optimal in teaching and learning.
2. For School

The researcher felt difficult enough to provide fun and interesting learning during the research, because the school is belong to a new school.. Beside that, the school facilities were very minimal. The researcher had to use an LCD projector that it is one and only at SMK Patiunus Karangawen and he had to bring it from the teachers' room to the research classroom. In addition, the researcher observed from the teacher's teaching style which still used chalks in delivering material, since the classroom still used the black board. The English teacher at SMK Patiunus Karangawen also still used

conventional method in teaching English. The researcher hoped that the school would increase the facility and the teacher's method.

3. For Students

- a. Students should study more and respond in learning process;
- b. Students should be more interested in learning English;
- c. Students should improve their ability in English;
- d. Students should be confident to speak English.

C. Closing

Praise to Allah, which has been giving everything so that the final project can be finished.

The writer realizes that this final project is far from being perfect, because of that, constructive critic and advice are really expected for the perfection of final project. Hopefully, this final project will be useful for all of us. Ameen.
