

## CHAPTER V

### CONCLUSSION AND SUGGESTION

#### A. ConcuSSION

Based on the discussion in the previous chapters can be concluded some conclusion. It were as follows.

The percentage of learning guidance that was done by English teacher in class VIII in academic year of 2015/2016 was 100% meant that it was located on A qualification or predicated Very Good. This was caused by the English teachers did it maximally.

The students' achievement (its average was 63,34) on class VIII who got learning guidance in academic year of 2015/2016 was better than the students' achievement (its average was 56,16) who did not get it in academic year of 2014/2015 in the English lessons.

Learning guidance affected significantly the students' achievement in the English lessons. So that the students' achievement of class VIII in academic year of 2015/2016 was better than the students' achievement of class VIII in academic year of 2014/2015. Where the value  $t_0$  (2,955) was greater than  $t$  that was on the table with  $df = 73$  both of equal of significant 1 % (2,379) and equal of significant 5 % (1,666).

## **B. Suggestions**

Based on the discussion and the conclusions above, The researcher gave suggestions.

### 1. For English Teachers

She maintain the learning guidance that has been done and continued to innovate in teaching so that the all the students will feel they have teacher and their achievement will achieve KKM.

### 2. For The Next Researcher

The researcher may suggest the next researcher to conduct as follows.

- a. Making the next research is not simple research because the next researcher will know the other effects.
- b. Making the next research is other ex-post facto because it can enrich the research about learning guidance of teacher.
- c. Conducting the next research is in other school or other academic. It can enhance the research about learning guidance.
- d. Conducting the next research don't just focus on learning guidance of teacher. It will give contribution in improving students' achievement.

### **C. Closing**

Alhamdulillah with rahmat and hidayah from God, Researcher can finish this thesis, hopefully it can be useful for researcher in particular and the reader in general. Researcher realized that this thesis still have many faults. For that, The advising and criticism that its nature is building always expected by researcher.
