e. Heny

Assalamualaikum.. my name is Heni Sholihah.

And just I want to ((*pause*)) give you about my own question that is very important question that we have to consider and we have to applied in your ((*pause*)) the real life.

The first question is; have you ever seen someone throw rubbish in the river, in everywhere and it's very disturbing you?

Ok, alright and now ((pause)) we want to ((pause)) I want you to know about our environment.

May be, most of us has known about a global warming.

That's our nature, our earth become damage and it can burden our life.

Unfortunately, most of us doesn't care.... Don't care about our situation right now.

Many people throw rubbish everywhere.

They d- give some pollution for our environment.

They produce smoke and they also didn't ((pause)) don't care about our garbage, rubbish and this is very irony right?

Because we know ((pause)) we have known about global warming but we do now.

So, the next question is about what will we do or what have we done to solve this problem?

You know that to solve this problem we need action not only talking about that.

But we need real action in our real life and ((pause)) we will do it collectively it can give the better to our environment.

The first is about minimizing the pollution.

We can reduce the use of electricity and we can also reuse the plastic bag that we get and it can decrease the number of garbage. And also ((pause)) we can do planting and we can give reboitation for our forest because there are still a lot of deforestation in our country. Just for,

If one persons plants one vegetable, one plant, also it can decrease the number of air pollution in our air area.¹
