

CHAPTER V

CONCLUSION AND SUGGESTION

This final chapter presents conclusions derived from the whole discussion and analyses conducted in the previous chapters of the study. This chapter also covers some suggestions concerning the study for the students, English teachers, and next researchers

A. Conclusion

The conclusion of this research is drawn in accordance with the result of the data analysis in the previous chapter. Based on the data analysis, it was found that the use of give one-get one technique to teach writing recount text to the eight grade students of MTs Al Hadi Mranggen in the academic year of 2019/2020 was effective.

The pre-test average score of the experimental class was 61.03 and the control class was 57.23. it means that there was a different 3.8 in pre-test average score. Meanwhile, the post-test average of the experimental class was 68.30 and the control class was 61.00. The difference in the post-test average score was 7.3 points. Furthermore, it was obtained that t_{count} is higher than t_{table} ($3.76 > 2.00$). Because t_{table} was lower than t_{count} , so H_0 was rejected and

Ha was accepted that there was a difference in the post-test average score between experimental class and control class.

In conclusion, the use of give one-get one is effective to teach writing a recount text. It is effective especially when it was held in the eight grade of MTs Al Hadi Mranggen in the academic year of 2019/2020.

By applying the give one get one technique in teaching writing of recount text, students can more easily practice and understand how to write, especially in recount text lessons. They get new experiences and also attract interest in learning because in learning they don't feel bored and are more fun.

B. Suggestion

From the conclusion, there are some suggestions that are proposed by the researcher:

The researcher realizes that it was still less perfect. The research is implemented in a short time. It makes this research could not be done maximally. The lack of experience from the researcher, the implementation of this research was less perfection. So, for the next researchers, it is expected that this study can be used as their reference to conduct other

researchers in the same field. I suggest for the next researcher to do the research maximally and apply another effective way when doing the same study.

C. Closing

Praise to Allah SWT, which has been giving guidance, so the thesis can be finished. The writer realizes that this paper is far from being perfect, because of that constructive critics and advise are really expected for the perfection of the thesis. Hopefully, this thesis will be usefull for all of us. Aamiiiiiiiiinnnn ya Robbal ‘alamin.
