B. Suggestions

Based on the conclusion, the writer would like to give some suggestions as follows:

1. For English Teacher
 - a. The teacher should use pictures sometimes as an alternative interesting media to students' understanding on describing something in order to make students more

communicative in speaking English. So, it seems that pictures can motivate students because the students' interest sometimes is stimulated by classroom "give and take" process.

- b. English teacher should present enjoyable teaching learning process to motivate the students and present various media that can give authentic input for the students in learning speaking.
- c. English teacher should explained material clearly by giving a lot of examples and always improve their own quality such as by reading English book, taking English course, following seminar, etc.
- d. Teachers should always motivate students to speak English by exposing them to the language as often as possible due to the fact that many students do not have the chance to practice the language.

2. For Students

- a. They should love to study English first.
- b. They should try exercise in speaking, especially in pronunciation

Finally, the writer concluded that although using pictures as an aid in teaching learning is not the best one, probably it could be useful to create a more lively, fun, and joyful learning atmosphere.

C. Closing

Thus, the thesis was made. The writer is sure that this thesis is far from perfect ness, because of that, constructive critics and advices are really expected. Finally, hopefully this thesis is useful for all us. Amin.
