

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the research that was carried out in MTs Sunan Muria Pati in academic year of 2015/2016, the researcher might draw conclusion.

This research showed that Snowball Throwing (ST) is effective to teach students' reading comprehension on descriptive text. It can be looked from students' score in doing test. The experimental group's achievement reached 71,25 as the average of their post test score whereas the average of the pretest score was 63,88. The control group's achievement reached 64,17 as the average of their post test score whereas the average of their pretest score was 62,29. The result indicates that the post test score of experimental group was higher than control group. It means that using ST strategy is more effective to teach students' reading comprehension on descriptive text than non ST one.

The use of ST strategy gives positive effect to the students and motivates the students in learning English, especially on descriptive text. Because it can be fun, competitive, and develop team working and responsibility in their groups. So, it can make students' achievements by using ST strategy to teach students' reading comprehension on descriptive text is better than without using ST.

B. Suggestion

Based on the result of this research indicates that there is a positive effect of ST to teach descriptive text in reading comprehension. Some suggestions for the teaching learning English are proposed as follows:

1. For Writer

After conducting this research, many experiences have been gotten. The writer can know the teaching learning process in class. It is important for the writer to know the appropriate medium in the teaching English.

2. For Students

- a. Students have to be more interested in learning English, and the students should study hard because English as foreign language is one of difficult subjects as they considered.
- b. Students also have to learn more about the kinds of texts (genre), especially for the eight grade students should learn the descriptive text correctly.

3. For Teacher

- a. Teacher may consider the use of ST in the teaching descriptive text reading comprehension.
- b. Teacher should prepare the equipment well. It means that before using ST in the teaching descriptive text reading comprehension, it will be better for teacher to

make sure that the qualities of equipment used are good.

4. For Reader

The writer hopes this thesis can be useful for readers. So, they know that using ST to teach descriptive text in reading comprehension is effective.

C. Closing

The true praise only belongs to Allah, who gives power and health until this final project can be done. The writer believes that this research is far from the perfectness. Therefore, constructive criticism and advices are really expected. Finally, the writer hopes that it can be useful for her and for the readers in general. Amin.
